WORKGROUP SOLUTIONS

HIGH-END PRODUCTIVITY COMES TO LOW VOLUME

Powerful Canon Systems Designed to Help Every Business
Produce Documents and Share Information Efficiently.

 **imageRUNNER®**
2020 / 2016 SERIES

The advantages of digital multifunction technology are more apparent than ever before. You need a solution to meet the daily challenges faced in an increasingly sophisticated communications environment.

Now you can have it with the imageRUNNER® 2020i/2016i and the imageRUNNER 2020i/2016i devices, Canon's solutions for busy workgroups and small businesses. Producing laser-sharp output at speeds of up to 20 and 16 pages per minute (letter), respectively, these compact imageRUNNER devices can deliver the benefits of digital copy, network print, and fax features, along with innovative technologies that will help your business save time, space, and most of all, document production and distribution costs.

So whether you're a growing company or a corporate workgroup stretched to capacity, Canon has the tools you need to create and distribute the information that fuels your business.

imageRUNNER 2020/2016

The imageRUNNER 2020/2016 base models deliver digital copying, network printing, and optional faxing to meet the needs of small workgroups requiring basic yet expandable functionality.

imageRUNNER 2020i/2016i Control Panel

imageRUNNER 2020/2016 Control Panel

imageRUNNER 2020i/2016i

For more sophisticated users, the advanced imageRUNNER 2020i/2016i models build upon the capabilities of the base models to provide fully-integrated color communication features and a complete suite of functionality.

Feature	imageRUNNER 2020/2016	imageRUNNER 2020i/2016i
Memory Capacity (Standard/Maximum)	128MB/256MB	256MB/256MB
Copy	Standard	
Print	Standard (Canon UFR II LT) Optional (PCL)	Standard (Canon UFR II LT /PCL)
Fax	Optional	
Color Send	N/A	Standard
Document Feeder	Optional	Standard
Duplexing	Optional	Standard

All models ship standard with USB 2.0 and 10/100Base-TX Ethernet connectivity.

MULTIFUNCTION CONVENIENCE IN A COMPACT DESIGN

Versatile and expandable, the imageRUNNER 2020/2016 base models allow you to build a system to meet your business needs.

imageRUNNER 2020/2016

Simple to program and maintain, the imageRUNNER 2020/2016 base models ensure that each document is reproduced with accuracy. Every original is scanned at 600 x 600 dpi for copies that are amazingly faithful to the original. A host of image and document manipulation features can be accessed through the user-friendly control panel, making it easy to produce professional-looking documents the first time, every time. And to ensure that users are not kept waiting to make copies, Canon's RAPID Fusing System™ helps speed warm-up times while keeping energy consumption costs to a minimum.

PRODUCTIVE NETWORK PRINTING

With their standard USB 2.0 and 10/100Base-TX Ethernet interfaces, the imageRUNNER 2020/2016 devices are easy-to-use printers that provide users with complete access to available paper supplies and finishing modes. Printed pages are output at true 1200 x 1200* dpi print resolution to ensure superior image quality. Canon's innovative Ultra Fast Rendering (UFR II LT) printing technology comes standard to provide fast document processing, plus there's optional support for PCL 5e/6 page description languages. An optional duplexing unit provides two-sided printing, so you can save paper costs too.

SUPER-FAST FAXING

Configure your imageRUNNER 2020/2016 device with the optional Super G3 Fax Board to handle all your faxing needs. Users have access to one-touch speed-dial keys, a high-capacity Address Book, and a host of memory features that expedite your work. Plus, Canon's fax driver allows employees to fax documents from their computers for ultimate efficiency.

CONSIDERABLE CONFIGURATION FLEXIBILITY

Besides allowing you to copy, print, and fax documents, the imageRUNNER 2020/2016 models provide easy maintenance and extensive document-handling options. High-yielding supplies and consumables help keep running costs and downtime to a minimum for top-notch efficiency. You can take advantage of an optional 50-sheet Duplexing Automatic Document Feeder to relieve document handling chores. For lengthy job runs, each model can be equipped with up to five paper sources and support a maximum paper capacity of up to 1,080 sheets. The imageRUNNER 2020/2016 models also support a range of integrated output options that neatly collate and provide stapled document sets for immediate distribution.

Inner 2-Way Tray-E1

Finisher-U1 with Additional Finisher Tray

* Canon UFR II LT only. Requires 256MB RAM.

EVERY DOCUMENT REPRESENTS THE IMAGE OF YOUR BUSINESS...MAKE EVERY ONE COUNT

Whether you're working with hard copies or electronic files,
you'll make a great impression with the advanced imageRUNNER 2020i/2016i models.

imageRUNNER 2020i/2016i

The advanced imageRUNNER 2020i/2016i models build upon all the capabilities of the imageRUNNER 2020/2016 base devices, offering automatic duplexing and document feeding, a large LCD touch-screen user interface, expanded memory capacities, and PCL printing as standard. Plus, the imageRUNNER 2020i/2016i devices go even further to support full-color send capabilities, so you can streamline costs and improve communications.

POWERFUL DOCUMENT DISTRIBUTION—IN COLOR!

Take advantage of your network infrastructure and speed your business communications with the imageRUNNER 2020i/2016i models' powerful suite of black-and-white and full-color document distribution capabilities. Scan and send documents to individual or group e-mail addresses, to a file folder on a network or desktop, or as an I-fax over the Internet in one time-saving step. You'll streamline costs and save time by sending documents to multiple destinations instantly in popular PDF, TIFF, or JPEG file formats. And, with Canon's innovative PDF High Compression Mode, you don't need to worry about full-color documents clogging your network. This feature minimizes file sizes while maintaining image quality, so you and your recipients can easily work with scanned color documents.

EASY TO MANAGE

Canon provides a complete suite of device management and monitoring utilities such as Canon's imageWARE™ Enterprise Management Console (EMC), a web-based utility that helps facilitate centralized management of networked devices. Plus, every imageRUNNER system is bundled with Canon's browser-based Remote UI utility to provide real-time system monitoring and status information, so every user can make intelligent decisions right from the desktop. And, with their energy-saving features, the imageRUNNER 2020/2016 Series devices are ENERGY STAR® qualified systems.
